

“Under your skin” – Sinerga is a certified cosmetic company who have been producing innovative cosmetic and skin care products since 1978. All raw materials are the result of extensive research and substantiation. You can be assured of Italian class and style when formulating with Sinerga’s products!

Chemlink Specialities Ltd works in close liaison with Sinerga to provide formulations help and expertise and full understanding of the Sinerga range of raw materials.

TAN ACCELERATION/ MAINTAINENCE & SKIN BRIGHTENING:

Tyrostan® – Potassium Caproyl Tyrosine. Natural Water “bio-available” form of Tyrosine; speeds up the body’s natural production of melanins giving a rapid tanning action. Also available is **Tyrosinol** an oil soluble version.

Azeloglicina®. Patented - Potassium Azeloyl Diglycinate. Natural, safe and multi-active ingredient skin brightening and lightening; excellent sebum normaliser and emollient. Used in anti-ageing creams and anti-acne products.

SURFACTANTS & FUNCTIONAL INGREDIENTS:

A wide range of Amino Acid based surfactants, hydrolysed proteins, natural opacifiers and other specialities.

Natisol®. Patented – ‘Eco-cert’ certificated vegetable solubilizer for fragrances and essential oils.

NATURAL SKIN CARE & MOISTURISATION:

Abietoyl Soy Polypeptide – Natural functional surfactant with sebum normalising properties, excellent for face & body cleansers and “greasy” hair products.

Undecylenoyl Soy Polypeptide – Natural functional surfactant with anti-fungal properties; excellent for face & body cleansers and anti-dandruff products.

Elastocell – Lysine Carboxy Methyl Cysteinate; natural skin “resiliencing”; excellent anti-wrinkle active.

Phytocream 2000 – Natural wide range emulsifier and viscosity modifying agent for all types of skin creams & lotions.

Nanocream®. Patented – Natural “package” emulsifier giving spontaneous low viscosity micro emulsions for cleansing milks; excellent fragrance emulsifier.

Trealix® – ‘Eco-cert’ certificated. Natural high quality long-term moisturiser, high in natural moisturising factor.

Tiolisina® - Complex Sebum normaliser; excellent for facial & skin cleansers; proven anti-acne properties.

Fruit Waxes Range – A range of Fruit & Vegetable waxes based on Apricot, Wheat, Lime, Orange, Olive, Sweet Almond and Grapefruit. Ideal alternatives to Bee’s Wax in lip-sticks, lip-balms etc.

NATURAL PRESERVATION:

Naticide® – Natural fragrance with broad spectrum preservative properties, perfect for “preservative-free” formulations.

Feniol® - Alternative preservative system. Natural preservative, broad spectrum preservation for creams and lotions, perfect for “preservative fragrance-free” formulations.

All ingredients available with either standard preservative systems, preservative free in some cases or paraben-free on request.
